-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION
Information Disclosure Statement

1. The Information Disclosure Statement filed on June 5, 2003 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1,2,7,8 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Takashi et al (JP 2000-275518) or Sato et al (6,512,638).

See previous office action. In response to the office action the applicant did not discuss the cited references Takashi et al and Sato et al, but simply stated in page 6, lines 21-25 that "None of the applied references teaches or suggests the combined limitations of claim 1, including, but not limited, to a structure wherein a guide clearance of a first linear guide mechanism (*having the detailed structure and relationship to other elements as recited*) (emphasized) is larger than a guide clearance of a second linear guide mechanism (*having the detailed structure and relationship to other elements as recited*) (emphasized)". Such a simply statement in arguments to traverse the rejection is vague. Further the applicant's statement "*(having the detailed structure and relationship to other elements as recited)*" is also vague because there is neither such a detailed structure (of the guide clearance) nor relationship (of the guide clearance) to other elements in claim 1 as argued by the applicant. In fact, Takashi et al discloses clearly in Fig. 5, a guide clearance of a first linear guide mechanism (for moving a first lens group from fw

to ft) is larger than that of a second linear guide mechanism (for moving a second lens group from fw to ft). Similarly in comparing Figs 9,10,11, Sato et al shows that a guide clearance of a first linear guide mechanism (for moving a first lens group) is larger than that of a second linear guide mechanism (for moving a second lens group).

Allowable Subject Matter

4. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment

The amendments to claim 1 overcome the 112 rejection. Therefore the rejection under 35 USC 112, second paragraph has been withdrawn.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
